

**REMARKS**

In accordance with the foregoing, claims 1, 3 and 6 have been amended. Claim 2 has been cancelled. Claims 1 and 3-23 are pending and under consideration. Claims 3, 6, 14 and 15 are objected to.

The rejection based on Epperson is overcome. Independent claim 1 recites a frame placed along upper edges of the inner casing and the outer casing. Independent claim 18 recites a frame placed along upper edges of the inner casing and the outer casing. The Examiner relies upon the metallic member 62 of Epperson. However, this element is not placed along an upper edge of the housing 26, relied upon by the Examiner as corresponding to the claimed inner casing. Epperson, Fig. 2.

Dependent claim 4 recites a heat reflecting plate provided on a side surface of the inner casing. The Examiner relies upon Persinger. However, the heat reflector 52 of this reference is mounted to the base 10. Persinger, Fig. 1. The base 10 is not an inner casing, as claimed.

The remaining references do not overcome these deficiencies.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
